

SYNERGX SYSTEMS INC. SHARE TRANSFER
SYOSSET, New York - January 25, 2007

Synergx (NASDAQ SMALL CAP-SYNX) reports that Firecom, Inc. has purchased all the shares of Synergx which were previously owned by Genterra Inc., and has become Synergx's largest stockholder owning approximately 25% of our shares.

Firecom has made this investment because they believe in Synergx and its new technologies and markets in addition to our fire detection division, an industry with which they are already familiar.

Chairman and CEO Daniel S. Tamkin commented "I understand from conversations with Paul Mendez, CEO of Firecom that Firecom supports our executive management team fully and there will be no integration or other combination of personnel or facilities. That being said, we have discussed the possibility of Synergx marketing its audio-visual, security and other products to Firecom's large customer base which features strong relationships with building owners, developers and other end-users We are pleased to now have an influential stockholder that shares our passion for the industry and our vision to build a bigger, stronger, diversified and more profitable Synergx".

Synergx is engaged in the design, manufacture, marketing and service of a variety of data communication products and systems with applications in the fire alarm, life safety, security and communication industries. For further information about Synergx please go to our website at WWW.SYNERGXSYSTEMS.COM

"Safe Harbor" statement under the Private Securities Reform Act of 1995: This release contains forward-looking statements, which reflect management's current views of future events and operations. These forward-looking statements are based on assumptions and external factors, including assumptions relating to product pricing, competitive market conditions, financial data, and other risks or uncertainties detailed from time to time in the Company's filings with the Securities and Exchange Commission.
